RE: Robert J. Berchick, Ph.D.

To whom it may concern:

I have been asked to compose a letter of recommendation for the above-named colleague and I do so with great pleasure. I have known Dr. Berchick since September of 1986 at which time I became a post-doctoral fellow through the Department of Psychiatry at the University of Pennsylvania School of Medicine's Center for Cognitive Therapy in Philadelphia. At that time, Dr. Berchick was the clinical director of the Center and also served as my immediate supervisor.

Subsequent to my fellowship training, I remained in close contact with Dr. Berchick who has become an esteemed colleague and friend. I am well aware of Dr. Berchick's outstanding training and education as a clinical psychologist. He is professed in the field of cognitive-behavior therapy, as well as clinical psychology. He has also become involved in some forensic work during the course of his clinical practice as well.

During the course of our work together over more than three decades, I have become well acquainted with Dr. Berchick's clinical acumen and fine teaching abilities. He is clearly an outstanding figure in the field and is fortunate enough to have received some of the best training and education in the world. As a result, I highly recommend Dr. Berchick for any consulting or teaching position that he may pursue. I also highly recommend him to patients for treatment of a wide variety of emotional and behavioral disorders.

I have only the best to say about Dr. Berchick whose warm and charismatic demeanor renders him an outstanding figure in our field. I am quite confident that he will exceed the expectations of anyone who works with him.

Sincerely,

A handwritten signature in black ink, appearing to read "Frank M. Dattilio". The signature is fluid and cursive, with a large initial "F" and "M" and a long, sweeping tail.

Frank M. Dattilio, Ph.D., ABPP
Clinical Instructor in Psychiatry
Clinical and Forensic Psychologist
American Board of Professional Psychology
